

QUALITY, VALUE & SUPPLY FLEXIBILITY

Key Benefits that BHA brings to your Planter bag supply

- HDPE material has been laboratory tested to 1200 hours accelerated UV exposure – the equivalent of 6 years sunlight exposure.
- All designs have been tested to achieve a top lift test of 5 times lifting load.
- BHA can assist your business cash flow and site space by warehousing your full seasonal order in BHA's State warehouses. You can then order stock as required in full pallet lots and will only be invoiced as the stock is delivered to your site.
- BHA Sales Team will liaise with you to manage your stock through the season.
